CAREER OBJECTIVE

Motivated and detail-oriented Computer Science student with strong problem-solving skills and a passion for building efficient, user-centric web applications. Proficient in full-stack development and automation tools. Eager to learn, contribute, and grow as a software developer in a challenging environment.

EDUCATION

Gayatri Vidya Parishad College for Degree and PG Courses 2024 – 2028
B.Tech in Computer Science and Engineering 3rd Year
CGPA: 8.68 / 10.0

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java, JavaScript, SQL, HTML, CSS
Frameworks & Libraries: React, Node.js
Databases: Supabase (PostgreSQL), Firebase, SQLite
Tools & Technologies: Git, GitHub, Firebase, Supabase, Vite, OpenCV, n8n (Automation), Streamlit, Postman, VS Code
Other Skills: REST APIs, Authentication, Role-Based Access Control, PWA, Database Design, n8n Workflow Automation

PROJECTS

- PlacementHub – Multi-Tenant Placement Management Platform** *React, Vite, Supabase, PostgreSQL, PWA*
 - Developed a SaaS-based placement management platform for multiple educational institutions.
 - Implemented role-based access for Dean, TPO, Faculty, and Students.
 - Built modules for student management, placement drives, analytics, and recruitment workflow.
 - Designed a scalable multi-tenant architecture with secure authentication and database separation.
- AI Attendance Management System** *Python, OpenCV, Streamlit, SQLite, LBPH*
 - Built an AI-powered facial recognition attendance system using OpenCV, LBPH, and Haar Cascades.
 - Automated attendance marking with high accuracy and real-time recognition.
 - Created an admin dashboard for managing students, periods, and attendance reports.
 - Reduced manual effort and improved accuracy in attendance tracking.
- PeerSolve – AI Academic Doubt Solving Platform** *React, Firebase, JavaScript, PWA*
 - Developed a peer-to-peer doubt solving platform for students with real-time interactions.
 - Implemented authentication, question management, filtering by subject & academic year.
 - Added reputation system and leaderboard to encourage active participation.
 - Designed as a Progressive Web App for seamless mobile experience.
- SkyHigh Cricket Booking Platform** *HTML, CSS, JavaScript, Firebase*
 - Built an online cricket turf booking platform with an AI-powered booking assistant.
 - Implemented slot booking, availability management, and user authentication.
 - Designed responsive UI to enhance user experience for players and administrators.
- Bus Registration & Route Management System** *HTML, CSS, JavaScript, Firebase*
 - Created a web-based bus registration portal for students to select routes and stops.
 - Integrated Firebase Authentication and Firestore for secure data storage.
 - Simplified transport registration process and reduced manual paperwork.
- n8n Automation Workflows** *n8n, APIs, Webhooks, Google Sheets, Email*
 - Built automated workflows using n8n to streamline repetitive tasks and data flow.
 - Integrated APIs, Webhooks, Google Sheets, and Email services for end-to-end automation.
 - Examples: Automated form responses to Google Sheets, email notifications, and scheduled reports.
 - Improved productivity and reduced manual effort through workflow automation.

INTERNSHIP

Web Developer Intern | Gayatri Grads | Jan 2026 – Jun 2026 (6 Months)

- Developed and maintained the Alumni Portal, implementing features for alumni management, event updates, and communication.

POSITIONS OF RESPONSIBILITY

- Class Representative (CR)
- NSS Volunteer
- Event Organiser

OTHER INFORMATION

Languages: English, Telugu, Hindi
Interests: Web Development, Automation, Problem Solving, Cricket
